Notes on the Completion of the TC Form 2

The following explanatory notes provide specific guidance on the completion of TC Form 2. Please read them carefully before completing your application.

Box 1. Importer's/Exporter's Details

For these purposes, an importer/exporter who is requesting for a tariff classification dispute ruling may be a natural or juridical person. All required information should be provided. The name of the authorized representative (e.g., agent) should be indicated, if applicable. A written authorization should also be submitted.

Box 2. Contact Person

At any time during the evaluation of the good, the Commission may require clarification or additional information from the importer/exporter. He/she may designate a contact person with access to technical information about the good.

Box 3. Details of Good

The product/trade name is the name by which the good is known to traders and manufacturers and/or which is indicated in the import/export documents.

For imports, the country of origin refers to the country or state where the good was produced or manufactured, and not the port of origin. This information is needed for determining the tariff preference under Free Trade Agreements to which the Philippines is a party to.

Importers/Exporters shall indicate the declared tariff classification (i.e., the ASEAN Harmonized Tariff Nomenclature Code) for the good in question, and the tariff classification as determined by the Bureau of Customs (BOC).

The description of the goods should be sufficient to enable the good to be identified. Importers/Exporters may include information about the composition of the good, production process, properties, structure, function, intended use, packaging, and other pertinent information.

Box 4. Enclosures Submitted

Any samples, technical catalogs/brochures, duly certified complete composition, plans, photographs or other documents available, which may assist in determining the correct classification of the good, should be submitted.

Also, as required by Commission Order No. 2018-01, importers/exporters shall submit a copy of the BOC Single Administrative Document (SAD), a letter-endorsement, or ruling or assessment reflecting the tariff classification made by the BOC, and an affidavit or certification under oath that the goods are not subject of a pending application for advance ruling.

Box 5. Certification

By printing his/her name and affixing his/her signature, the importer/exporter certifies that all information and enclosure(s) being submitted are true and correct and relate to the good applied for tariff classification dispute ruling.

Furthermore, the importer/exporter commits that any additional information required will be submitted within ten (10) working days after receipt of request from the Commission.

* A tariff classification dispute ruling is not a decision on whether or not the good may be a prohibited or regulated import/export. It is the responsibility of the importer/exporter to ensure that the good is not prohibited and secure the required import/export clearance if the good is regulated.

** Any confidential information should be properly marked
